FRANKFORT, KENTUCKY, SATURDAY, OCTOBER 20, 1900.

NO. 6.

INSTRUCTIONS TO COUNTY CLERKS.

State of Kentucky,
Office Secretary State,
Frankfort, October 16, 1900.

To the County Clerk of

County:

Dear Sir:—By an amendment to the present election law, it is provided that the ballot shall be of the form herewith enclosed, i. e., that the emblem shall be just above a circle one inch in diameter, which is used instead of the square, and that the party title be immediately following. The primary stub for name and residence of voter and consecutive number of ballot is to be at the top of the ballot, above the device and the square, and for the name of the voter and consecutive number of ballot is to be on the bottom, or end of the ballot opposite to that of the several party devices. In all other respects the ballot will be the same. The small square following each name, and after each name there is to be a blank space for a name, followed by a small square. You will have printed in addition to the names of electors and candidates, the names of your candidates for Congress, and such other candidates as are to be voted for in your county. In the case of the Seventh Appellate District, the names of the candidates for Justice of the Court of Appeals will appear on the ballot, according to your direction. According to my construction of the act, which construction is concurred in by the Attorney General, the certification of the election of the electors of the whole State is to be made to the county clerks of the counties composing the districts, which are to elect such officers, and not to the Secretary of State. It is therefore incumbent upon you to have the names of all candidates certified to you by certificate of nomination, or by petition, printed on the ballots for your county, in addition to the names of the candidates for elector and Governor.

The act referred to provides also that I shall have shipped to you a sufficient quantity of a prescribed quality of paper on which to print the ballot, which county are to be printed. This paper has been ordered shipped to you by express, and will be sent immediately through the nearest local express office. You can have it printed at your printing establishment where your printing is to be done in time to have your ballots printed and sent to you for distribution in your county. I would suggest, therefore, that you have the party at your nearest express office and have it delivered or have it re-shipped to the printer where you will have your ballots printed.

This will save time and possibly provide against the failure to have your ballot ready in time. The act also provides that the county clerk shall have made for each voting precinct in his county one metal stamp at least one inch in diameter, which shall be known as the county election seal. It shall have upon it the word "election" straight across the center; the name of the county around the circle inside the rim above the word "election," and the name of the city or town in which it is to be around the circle inside the rim below the word "election." This seal is to be used in the sealing of the bundle of counted ballots at the close of the polls, as provided in the act. The name and principal offices of the act will follow this at the earliest practicable moment, in order that you and the precinct officers may follow its provisions.

You will also provide for each precinct one of the two seals mentioned, such as is used by the United States Government and express companies for sealing packages containing money. I mention these articles specifically in order that you may place your orders for them at the earliest possible moment of the act, which will be sent you in the next few days, advise you fully as to your duties and the duties of precinct officers under its provisions. The delay in sending the law and in presenting it to the Governor for his approval has made it necessary to delay sending the certificate at an earlier date. I have given my best efforts to the task of supplying you with the paper, and in complying fully with the act referred to.

It is proper I should add that if you do not receive the paper shipped to you under this law twelve days before the ensuing election it will be your duty to furnish your printer. It must be plain white, sufficiently thick that the printing can not be distinguished from the back, shall be of number one white book paper, and when 26 x 40 inches weigh 80 pounds to the

ream, and if double cap 40 pounds to the ream.

Very truly yours,
C. B. HILL,
Secretary of State.

COMMUNICATED.

Beverly, W. Va., Oct. 13, 1900.
Editor Roundabout:

Being connected with the West Virginia Central and Pittsburgh R. R., who have under construction about ninety miles of road I had occasion to call on their chief, Mr. Messrs. Mason & King's railroad camp, near Gladys, Randolph County, W. Va., and found Mr. Claiborne R. Mason, of your city, charged with a large portion of the work. Mr. Mason is an ideal railroad contractor, has a large camp well arranged with necessary commissaries, some 60 or more negro cabins and shanties, and ample provided with various tools. His camp is surrounded by several hundred laborers, and in addition to many rock cuts partially completed is putting through a large tunnel some nine hundred feet in length. Mr. Mason was over his work and shone over his work. He seems to be making rapid progress and is highly pleased with his success so far. He commences the work early in the spring and hopes to have the completion the latter part of December next.

Our people knowing his family's fame as contractors of railroads, and as this young man is a chip of the old block, we see no reason why he too should not climb the ladder to success in his profession so established. The work is very heavy and the contract a large one, being fifteen miles to the nearest town, and in the heart of the mountains of West Virginia. As a young man in this work is so important a piece of work we think he has made a marked success.

Thinking it worthy of note and interest to my friends, I indulge in this liberty.

Respectfully,
EMPLOYEE W. V. C. & P. R. R.

A TRIP TO THE MOON.

The Midway at the Pan American Exposition in Buffalo, in 1901, will be over half a mile long, giving a mile or more of frontage for the wonderful variety of novel entertainments there to be presented. It will outrival in interest and entertain anything ever created in this line. It will include some of the best standard attractions, vastly improved, and a strong array of new ones fresh from the fertile brain of the inventor and artist. It will be a display of ingenuity impossible to anticipate by any process of extravagant reasoning or guessing. Who but a professional of ripe experience could have placed "A Trip to the Moon?" The voyager is directed to go aboard the airship "Lum," moored at a convenient landing. It is light, and the heavens sparkle with a myriad of stars. When all is ready the cables are thrown off and the ship rises steadily to a height of about two miles. The air is clear, and you can see many lights on earth below. We now pass eastward over Rochester, Albany, and then southward over New York. The earth now falls rapidly behind. We are going at a terrific velocity, as noted by the resistance of the air, which seems to blow hard in our faces. The earth becomes a large ball and moon grows larger. We are fast nearing the satellite, and soon find the ship moored to a landing in the moon. Guides receive us and show us the palace of the Man in the Moon. His majesty receives the party, bidding them welcome and according them the freedom of his domains. We are then shown about the splendid palace and through the streets of the City of the Moon. The ladies are especially interested in the show windows of the moon shop. The trip may be made with entire safety, and the return to earth leaves one with the remembrance of having passed through a wonderful experience.

When you have no appetite, do not relish your food, and feel dull after eating you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. Price 25 cents. Samples free at J. W. Gayle's drug store.

DARKNESS AND DAWN.

"Darkness and Dawn," which is to be one of the features of the Midway at the Pan-American Exposition in Buffalo next year, is a presentation of Dante's Inferno. It is remarkably realistic, with enough of comedy to relieve the gruesomeness that otherwise might jar sensitive natures. The visitor is taken in hand by guides and conducted to an elevator by which he seems to go down, down into hopeless darkness. As he steps from the cage he finds himself in a cool retreat with jovial companions, such as a living skeleton, a widow in her weeds, and an undertaker or two. It is the threshold of the place which good people expect to avoid in the hereafter. The visitor, under the protection of guides, is assured of safety. He is led through a series of corridors and grottos, along burning lakes and other devices of torture, where he may witness the punishment of those who juggle with the truth, who borrow umbrellas and neglect to return them, who gossip about their neighbors, and who otherwise trespass on the rights of others. The lesson is salutary one. Presently the scenes of purgatory are passed and the visitor comes to the "Grotto of Dawn," where maidens are dancing and singing and wonderful illusions greet the eye. The music and brilliant scenes form a happy ending of the journey. After a trying few moments in the grotto the visitor returns once more to the realm of everyday life.

NO RIGHT TO UGLINESS.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down she will be nervous and irritable. If she has constipation or piles, the doctor will tell her that will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitterts is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth velvet skin, rich complexion. It will make a good looking, charming woman of a run down invalid. Only 50 cents at J. W. Gayle's Drug Store.

WILSON LOSES SOME MORE.

Col. John Henry Wilson, who had filed suit in the Jefferson Circuit Court to oust Judge W. L. Brown from his position as Circuit Judge for the Barboursville District, claiming that he (Wilson) was elected because some 96 voters pasted his name on the ballot last November, and whose claim was disallowed by Judge Field, of that court, was knocked out again, on Wednesday, by the decision of the Court of Appeals, which affirmed Judge Field's opinion, and held that there had been no legal election held, and that Judge Brown was the lawful judge.

VOLCANIC ERUPTIONS

Are grand, but skin eruptions rob life of joy. Buckleyn's Aronica Salve is an old, time-honored remedy and fever sores, acne, boils, felons, corns, warts, cuts, blisters, burns, scalds, chapped hands, chilblains, best pile cure on earth. Drives out pains and aches. Only 5 cents a box. Cure guaranteed. Sold by J. W. Gayle, Druggist.

FIRST FROST.

On Wednesday night last we had the first frost of the season. It was a heavy white frost, and as the ground was dry there was no damage done to amount to much.

In this city there was such a heavy fog that there was no injury done to vegetation.

REPREHENSIBLE.

Some thoughtless boy came near causing a serious accident to one of our old gentlemen on Wednesday evening. On Shely street, near Campbell, they stretched a stout cord across the pavement, and in the darkness the gentleman, who was walking rapidly, struck the cord and was thrown violently to the ground, bruising him up considerably, luckily no bones being broken.

The authorities should look into this, and punish severely those found guilty. They certainly knew it was wrong, and were careless as to who was likely to be injured by their meanness.

NEWSY NOTES FROM THE Y. M. C. A.

The fall interest is awakening along all lines of work, and every department is preparing for better things.

The gymnasium classes which were begun on Oct. 1st, are growing. Mr. R. E. Klien, recently of Cincinnati, has charge of the class work, and he is proving his knowledge of practical gymnastics.

The new bath rooms are about completed. This means that the Association is now able to accommodate more members. This department alone is worth triple the membership fee.

A debating club, in the near future, is most probable. All interested should be at the Association rooms to-night. A literary club also is assured. The club was organized Thursday night.

The library is popular, but it needs some additional books. The friends of the Association can render much help by making donations to this department.

The standing committees of the Association have been appointed and in the near future some interested friends will invite the active membership to meet in their home for a social evening.

The men's Bible Class, which meets on Friday evening at 7:30, is becoming more interesting and much help is being derived.

The men's Sunday meetings continue to grow in interest. Dr. J. W. Tyler, of Richmond, spoke last Sunday to an appreciative number of men. The service to-morrow will be one of special music and song. It will be interesting to everyone.

Mr. Knox, the General Secretary, spent last Sunday in Eminence, Ky., where he assisted in a Y. M. C. A. meeting. Considerable interest was manifested, and it is not unlikely that an organization will be formed there.

The board of directors met Thursday afternoon and discussed and adopted plans for improving the Association.

Feelings of safety pervade the household that uses One Minute Cough Cure, the only harmless remedy that produces immediate results. It is infallible for coughs, colds, coughs, and all throat and lung troubles. It will prevent consumption. South & Longmoor, W. McKee Hardie.

IT HAPPENED IN A DRUG STORE.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and asked to know if any other preparation could be recommended. I said to her that I could readily recommend Chamberlain's Cough Remedy, and that she could take a bottle of the remedy and after giving it a fair trial she could return it for a refund the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend who needed a cough medicine, and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendation of people who have been cured by its use. It is for sale by J. W. Gayle, Druggist.

FINE COURSE OF LECTURES.

The ladies of the Improvement Committee of the Methodist Church have secured three of the finest lecturers now on the platform, who will lecture in this city at the following times, and on the themes given below:

Hon. Bob Taylor, ex-Governor of Tennessee, on Thursday evening, November 15, subject "Fiddle and the Bow."

Hon. Alf. Taylor, ex-Congressman (brother of ex-Gov. Bob) on Monday evening, December 3d, subject "Poetry and Pearls."

These lectures will be given in the Ball Room of the Capital Hotel. Tickets for reserved seats for the whole course, \$1.50, or fifty cents for a single lecture. They may be had at Barrett's News Depot.

A rare series of lectures will be given, affording delightful entertainment and at the same time helping a good cause.

Don't be humbugged or deceived by people who claim the discovery of some hitherto unknown herb or root in swamps, or on some mountain or prairie, for the cure of kidney and bladder troubles. TRUE AS GOSPEL.

Of all the love affairs in the world none can surpass the true love of a big boy for his mother. It is pure and noble, honorable to the highest degree in both. I do not mean only that makes a boy a giant and courageous, but that it is a devotion to everybody that he is fairly in love with. Next to the love of a husband nothing so crowns a woman's life with honor as this second love, that devotion of a son to her. I never yet known a boy to turn bad who began by a true love with his mother.

Any man may fall in love with a fresh-faced girl, but the boy who is a lover of his mother in her middle age is a true knight.

CENSUS OF CUBA.

Headquarters Division of Cuba, Office of Chief Sanitary Officer of Havana, October 1, 1900.

To the Adjutant General, Division of Cuba.

Sir:—I have the honor to forward to you the following statistics of Havana for the month of September. The general death rate of this month makes a very favorable comparison with that of any September for the past ten years.

The rate shows that we had 519 deaths, which gives a rate of 29 per thousand for the year. This is considerably less than any September for the last ten years with the exception of last year, when we had 34 more deaths than September.

September for the last ten years.

This, of course, considerably affects our mortality rate; but the greatest item is the fact that in September of last year Havana had just

two cases of smallpox for two years, and it is well known

that famine and pestilence kill off the old, very young and invalids

generally, and that for a short time after such calamities the death rate is increased.

The number of deaths for the month of September was greatly

reduced for the last four months in 1899. This, of course, must be taken into consideration.

The deaths for September, 1899, of children under one year of age, 41

for this September there were 124.

This shows a large increase in the number of children under one year, due to the fact that during the preceding three years the birth rate

dropped to a very low point

and most of the children who died through pestilence and famine.

Taking in the items of Yellow Fever and death under one year of age, 34 in one case and 33 in the other, the death rate for the month of September was 29 per thousand.

This compared with the death rate for the last three years.

Tuberculosis shows a steady decrease, the rate last year being 3.92 per thousand, that for this year being 3.8 per thousand.

We had 52 deaths from Yellow Fever. This compared with the number of deaths for the same month during the past ten years is much under them. The only deaths from cholera in the smallpox number are 1890, '98 and '99.

Considerable increase in the

much larger noninfluenza population at present in Havana than was in Havana during the years mentioned, this makes a good showing.

The average for September during the past ten years is 72.40, which is very much greater than the number we give this month. Of the cases occurring in September '64 were Americans 18, English 10, French 10, German 5, Spanish 37, giving percentage of deaths 7.81 per cent Americans and 18.89 per cent Spaniards.

The immigration has been very large and brings us a large quantity of noninfluenza material, but the steps taken by the Military Government for establishing a Bureau of Immigration, and to put an immigration department in the city will greatly obviate this. The idea being to collect all the immigrants and take them right from the ship to this settlement, without coming near the City of Havana, and then to take them to the various destinations on the Island. This would have more immediate effect than any other measure, I think, that can be taken at present.

The amount of cleaning and sanitary work, as shown by the report, has been very largely increased.

Great attention to the very large number of premises, cesspools, etc.

examined this month as compared with any former month. Also the large number cleaned and disinfected.

We have now employed a total of

55-two inspectors, constantly in

pecting the condition of houses,

and the houses and forty other

employees constantly engaged in

various ways in attending to the re-

GEO. A. LEWIS, Editor and Pub.

FRANKFORT, OCT. 20, 1900.

DEATH OF GOV. THOS. P. PORTER.

Hon. Thomas Paine Porter, of Versailles, at one time State Senator from the district composed of Franklin, Anderson and Woodford counties, died at his home on Monday last, aged 79 years. While Senator he was elected president of that body, and after the death of Lieut. Gov. Lynn Boyd became Lieutenant Governor ex-officio, and acted as Governor several times in the absence of Gov. Magoffin from the State.

He was a man of fine mind and great attainments, but had been retired from public affairs for long years.

As a lawyer, while not brilliant, he was thoroughly acquainted with the principles and practice of the profession. As a politician in debate he was sarcastic and bitter to a strange degree, considering that he was a warm-hearted and chivalric gentleman in private life.

He was a member of the Methodist Church in his later life, and the funeral services were conducted by his pastor, Rev. Dr. C. F. Evans, after which the remains were placed in the Versailles cemetery.

HORRIBLE SUICIDE.

Col. Thos. F. Lane, son-in-law of Hon. Jo. C. S. Blackburn, committed suicide at his home in Washington City on Monday night. Ill health was the assigned cause.

It is said that Col. Lane was a handsome and cultivated gentleman. He was married to Miss Lucille Blackburn, youngest daughter of the ex-Senator, and had one child, a little girl.

YOUTSEY TRIAL.

The heretofore unheard of and uncanny spectacle of an unconscious and possibly dying man being tried for his life is now the shameful spectacle that holds the boards at Georgetown.

Guilty or innocent, any man who is unconscious is entitled to have a trial at which he is aware of all the facts and is able to consult and advise with his counsel, and to testify in his own behalf.

These are strange times, and strange scenes are witnessed in the "Old Kentucky Home." God grant that they may never occur again.

TRYING TO OUST CHINN.

Acting Attorney General Breckinridge made a motion in the Court of Appeals, on Tuesday, looking to having County Clerk Claude Chinn, of Fayette county, removed from office.

It takes a two-thirds vote of the judges of the Court of Appeals to accomplish the removal.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample. Its agreeable taste will surprise you.

FEDERAL LAW AS APPLIED TO STATE ELECTIONS.

In the case of U. S. v. Coe, 127 U. S. Reports, an interesting decision is made as to application of the Federal laws to State elections when Congressmen are elected at the same time.

The case was one where a Mayor of Indianapolis was elected at the same time as a Congressman. The indictment was for tampering with or concealing ballots that concerned the election of mayor. It did not affect the Congressman's election in any way.

Two opinions are published—one by Justice Harlan and one by Justice Miller—both concurring. The court holds that where Congress has made no special law to govern Congressional elections the State law shall take its place, and any offense that in any way might affect or invalidate the election of Congressmen, although applying to a State election only, shall come within the jurisdiction of the Federal courts. In the case of the Mayor of Indianapolis cited, the court took jurisdiction, although the offense did not affect the Congressional election. The court held that it might have done so.

Under this decision in the coming election all offenses that might affect the election of Congressmen will come within the jurisdiction of the U. S. Court, although relating only directly to the election of Governor or Judge of the Court of Appeals.

When you can not sleep for coughing it is hardly necessary that anyone should tell you that you need a good night's rest. A simple enough remedy to allay the irritation of the throat and make sleep possible. It is good. Try it. For sale by J. W. Gayle, Druggist.

THE BISHOP OF DELAWARE.

To-morrow, Sunday, October 21st, the Right Rev. Dr. Coleman, Bishop of Delaware, will preach both morning and night at the Church of the Ascension (Episcopal). There will be a special meeting of the Woman's Auxiliary, the ladies' missionary society of the parish, immediately after the evening service, at which the Bishop will make an address, and he will also speak to the Sunday-school in the morning. Bishop Coleman is on his way to attend the Missionary Council of the Episcopal Church, in Louisville, next week, and is a most earnest and vigorous speaker, and it is expected that large congregations will hear him on his Sunday in Frankfort.

BECAAME A LAW.

The new law, known as House Bill No. 19, which provides for preserving the ballots, putting a circle under the devile, punishing tampering with ballots or with voters, and is, generally, a good law, became effective on Tuesday by the attaching of the signature of the Acting Governor.

The law will punish the acts and doings that have been so rampant at elections in this city for several years.

But the trouble is that there are men who have done these things that are clothed with the power to punish. Only a power above the local court can any election stealer be punished.

REMEMBER

That Ward's Minstrels, which are the best now on the road, will give one of their unrivaled exhibitions at the Opera House, this city, to-night. There will be a big crowd. Go early.

OLD MASON'S HOME.

The Grand Lodge of Kentucky, F. & A. M., on Wednesday decided to purchase a farm of 250 acres, upon which to establish Home for Aged and Infirm Masons.

A fund of \$50,000 will be raised to pay for the farm and put up the necessary buildings.

TAKEN TO GEORGETOWN.

Mr. James Howard, now under sentence of death for the killing of Goebel, was taken to Georgetown on Wednesday and testified in the Youtsey case. He said that he did not know Youtsey; never talked with him; was not in the Secretary of State's office the day Goebel was killed; and knew nothing of any arrangement to kill him.

If you have not tried it, send for free sample. Its agreeable taste will surprise you.

Spare Women.

In former years when thin women wished to gain flesh and roundness of form they would take warm baths and follow this by rubbing into the skin a salve. Does it Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer climate or regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissue to destroy the germ disease, but also allays inflammation, gives a good night's rest, and cures the patient. Try one bottle. GREAT EXCURSION—LAST OF SEASON.

By an advertisement in to-day's paper it will be seen that the Queen and Crescent Railway will give the last grand excursion of the season to Cincinnati from Harriman, Tenn., and all points between the two, on Friday night and Saturday, October 26th and 27th.

Everybody should take advantage of the great offer.

Dr. W. H. Lewis, Lawrenceville, Va., writes: "I am using Kodol Dyspepsia Cure in my practice, among severe cases of indigestion, and find it an admirable remedy." Many hundreds of physicians depend upon the use of Kodol Dyspepsia Cure in stomach troubles. It digests what you eat, and allows you to eat all the good food you need, providing you do not over-load your stomach. Gives instant relief and a permanent cure. South Longmoor, W. McKee Hardie.

FINE RECEPTIONS.

Gov. Roosevelt met with fine receptions at all his appointments in Kentucky, commencing at Henderson and ending up at Covington.

The turnout at Louisville was a specially gratifying one, the crowd being estimated at all the way from 15,000 to 25,000.

At only one point was there any rowdiness (Elizabethtown) and that was quickly suppressed by the scathing rebuke of the gallant Rough Rider.

DO NOT GET SCARED if your heart troubles you. Most likely you suffer from indigestion. Kodol Dyspepsia Cure digests what you eat and gives the worn-out stomach perfect rest. It is the only preparation known that completely digests all classes of foods; that is why it cures the worst cases of indigestion and stomach trouble after everything else has failed. It may be taken in all conditions and can not help but do you good. South & Longmoor, W. McKee Hardie.

There are some people who are not behaving like they ought to. We think that if boys can't have them ought to stay away from places like that, or some one ought to enforce the law against them.

ECHO.

CAME NEAR DYING.

"For three days and nights I suffered agony until from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lovell, clerk of the district court at Keokuk, Iowa. "I thought I should die and tried a dozen different medicines, but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Dysentery Remedy, and three doses relieved me entirely. I went to sleep and did not awake for eight hours. On awakening a few hours ago I felt so gratified that the first work I do going to the office is to write to the manufacturer and offer my thanks, and offer them my grateful thanks, and say 'God bless you and the splendid medicine you make.'
